Respond for a chance to **WIN A FREE REGISTRATION** for ERACON 2024 in Porto, Portugal, valued at **500€!** Submit your reply by 31 January 2024, [HERE](#)

EUROPE ON THE MOVE – A PROPOSAL ON THE FUTURE OF LEARNING MOBILITY

On 15 November, the Commission adopted the proposal for a Council Recommendation ‘Europe on the Move’ – learning mobility opportunities for everyone as part of the Talent Mobility package.

This proposal is a key building block of the European Education Area (EEA) aiming to make learning mobility an integral part of all education and training pathways, to boost the share of people in the EU benefiting from a learning period abroad, and to increase the share of people with fewer opportunities, including disabled persons, in learning mobility. It also promotes the attractiveness of the EU as a learning destination to talents from third countries. **More Information** [HERE](#).

UPDATING THE INTER-INSTITUTIONAL AGREEMENT EWP API (VERSION 7)

The update aligns the EWP Network with the new [Erasmus+ template for inter-institutional agreements](#), published in early 2023, and enables additional functionality and technical updates. The changes, decided through the EWP Governance, aim to enforce clearer data standards, and improve interoperability and usefulness for colleagues in higher education institutions (HEIs). **Read more** [HERE](#).

2.2 MILLION ACTIVE EUROPEAN STUDENT CARDS

- The European Student Card surpassed its objectives for 2023 with over 2.2 million active European Student Cards now in circulation across 16 Erasmus+ Programme countries.
- The success of the ESC relies on implementing a sound, secure and efficient system to support higher education institutions and students’ access to services.

PAST EVENTS

1ST PHYSICAL PROJECT MEETING IN KRAKOW

The two-day kick-off meeting in Poland was an intensive and inspiring event that took place on October 19th and 20th, 2023. During the meeting, the consortium came together to discuss the project's progress, learning modules, quality assurance and impact, as well as brainstorm, strategize and focus on crucial aspects of the project.

FREE LIVE WEBINAR: ACTIVELY INCORPORATING ARTS IN MATHEMATICS AND SCIENCE EDUCATION – AN INTRODUCTION TO EDUCATIONAL THEATRE

The aim of the webinar by Mr. Yiannis Lazarou was to present the main aspects and educational advantages of a short math/science & languages theatrical play, written, organized and presented by the students themselves and its benefits inside a STEAME-education environment. Also, to help the teachers/colleagues of primary and secondary education get familiar with the concept of math/science & languages theatre. A padlet app and an online handout was provided for further guidance. Teachers (and/or students attending the webinar) were facilitated to learn how to follow certain steps, in the process of writing/creating their own short theatrical play. You can access the webinar [here](#).

Co-funded by the European Union

Actively Incorporating Arts in Mathematics and Science Education: An Introduction to Educational Theatre

Yiannis Lazarou
STEAME Educator, Cyprus

THE STEAME FESTIVAL

The Cyprus Mathematical Society, partner of the STEAME ACADEMY project, in collaboration with Thales Foundation and other local organizations, organized the **Cyprus STEAME FESTIVAL 2023** on December 1, stand 2, 2023. The event was hosted at the University of Cyprus Campus, in Nicosia, Cyprus. The festival's primary focus was to showcase a diverse array of interactive STEAME learning activities addressed to school students and a set of workshops addressed to school teachers. The Festival was bilingual, in Greek and English. The event was organized under the patronage of the Minister of Education, Sport and Youth of Cyprus.

EU PROJECTS

GREEN ROOFS
