ECOLHE FINAL INTERNATIONAL CONFERENCE and THE BEGINNING OF EVOLUTION

The “ECOLHE INTERNATIONAL CONFERENCE 2023” will be organised on 08 June 2023, in Protaras-CYPRUS and the aim is to discuss the challenges of digital transformation in Higher Education and to present the results of the ECOLHE project!

If you are in Higher Education and would like to improve your knowledge and skills in digital technologies in Higher Education the ECOLHE training course is the right choice for you! Innovative approaches, focusing on improving and upgrading teachers’ digital competencies, for fostering students’ level of engagement and motivation will be presented.

The program is very rich with various external interventions, as the project call for abstracts has attracted researchers and experts from Italy, Spain, Greece, Finland, Poland, Ireland, Egypt and Cyprus.

ECOLHE encourages the production, experimentation and sharing of new approaches and training methods in the field of digital culture through the online course “Engaging Higher Education students with collaborative e-activities”.

The language of the Conference is EN.

Registration is Free and the Conference information is at <https://eaecnet.com/index.php?id=546>

21 Recommendations to make Learning Opportunities Abroad a Reality for All

From 28 to 30 April, the Commission gathered a Citizens' Panel in Brussels for the third and final session of deliberations on how to expand learning opportunities abroad to everyone. The ideas put forward by the citizens turned into 21 concrete recommendations aiming to facilitate the mobility of learners, educators and staff from one country to another.

"Empower hybrid Competences for Onlife Adaptable Teaching in School Education in times of pandemic"

The ONLIFE Final Meeting took place in Brussels on May 4th, 2023. Partner EUROGEO hosted it and the main discussion revolved around the exploitation and sustainability of the ONLIFE outputs.

The aim is to empower teachers and school leaders to face the digital transformation of the education system in times of crisis. The goal is to reinforce the schools to provide high quality and inclusive digital education to their students through the development of mainly the learning platform, the self-assessment tool and the Guidebook with recommendations and guidelines for school system bodies.
